### Projects

Audio file translator and transcriber app using OpenAI Whisper - take an audio file and uses Whisper to listen to the file and either translate or transcribe the audio.

3D Terrain generator - created an infinite simulation of a terrain generation using processing and Java.

Website Login Page - basic website login page using html and css.

### Experience

Brand Ambassador, RateMyDorm, Seattle, WA - (2022-2023)

My job was to bring attention to the website [RateMyDorm.com](https://RateMyDorm.com) and provide opportunities for students at the University of Washington to review their dorms.

Flow Monitor, Providence Medical Center Spokane, WA - (2021-2022)

Volunteer at COVID-19 vaccination clinics as a flow monitor. My responsibility was to direct patients through the process of being vaccinated or answered questions they may have had from the questionnaire sheet.

Private Tutor, Spokane, WA - (2018-2020)

Tutored elementary students with their schoolwork, mainly math related subjects.

### Education

University of Washington, Seattle, WA - Computer Science / Neuroscience, Expected: 2026

Lewis and Clark High School, Spokane, Washington - 2022
